

As we believe that AROS 68k is the only real alternative to the AmigaOS licensing limbo, Apollo Team decided to show a strong commitment to the AROS Team by helping them develop AROS 68k.

For each future Vampire Standalone sale done, Apollo Team will put aside €5 to fund the AROS 68k project, being redistributed directly by rewarding AROS 68k developers or bringing them complete Vampire Standalone systems (board, case, PSU, keyboard, mouse, etc.).

If you are one of them, get in touch with us for details.
